Dr Paresh graduated from Homeopathic college in 1991 and has gained rich clinical experience working with renowned teachers such as Dr. Rajan Sankaran and Dr. Jayesh Shah. He has conducted seminars in India, the USA, Israel, Romania, Poland, Germany, Japan, and South Korea. He is currently teaching the Sensation method at the 'The Other Song International Academy' in Mumbai. His focus is on going deeper in life and he emphasises experiential learning.

Dr Paresh worked with Dr. Rajan Sankaran to develop the software 'VitalQuest' and is now the managing director and head of development at 'Synergy Homeopathic', creators of the MacRepertory and Reference Works software.

Carbon compounds are the building blocks of life and are found everywhere. Many of the thousands of carbon compounds that exist, are used as remedies. However, do we truly understand their essence and experience?

This course is designed to provide a deeper understanding of carbon remedies and help practitioners prescribe them more effectively. It will focus on the source language of selected carbon remedies and demonstrate the depth of the Sensation method. Cases of carbon remedies will be presented, and participants will learn about the themes of the carbon group remedies and the expressions seen in some of the remedies.
