

The Right Way of using The Right Brain Approach in Homoeopathy

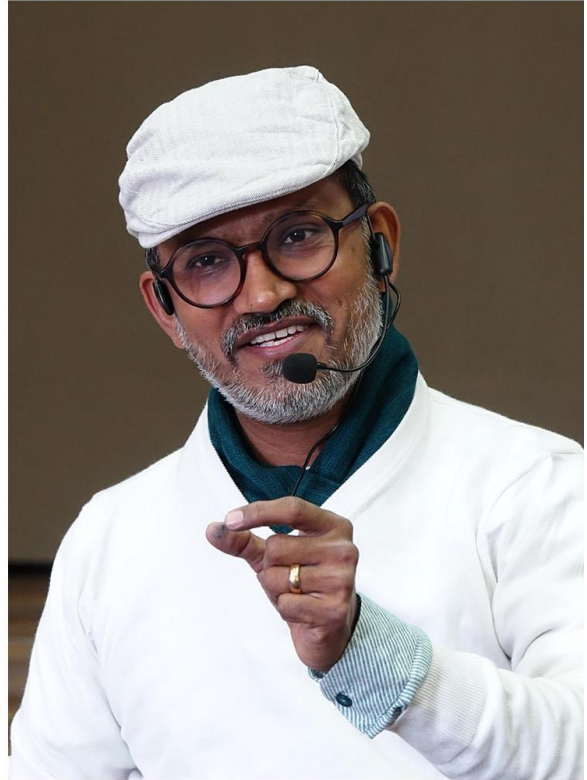

with Dr. Dinesh Chauhan

In this series of two x five hour online seminars, you will learn the right way of using the right brain approach:

- 🌀 in your normal case taking journey
- 🌀 in acute, chronic or one-sided cases
- 🌀 in deep irreversible pathologies
- 🌀 in difficult, stuck cases

The right brain approach to case taking guides us to connect the right brain artistic, integrative approach with the systematic, logical left brain approach, making patient understanding deeper and more centered.

Guided right brain methods will be taught and illustrative cases will show the full approach.

Sunday March 3 & 17

1-6 pm AEDT

9 CPD points

Recording only available to registrants

Free 30 minute Taster Session

Wednesday January 31

7.30pm AEDT
